

ROLLING HILLS GOLF CLUB

DHAHRAN, SAUDI ARABIA

## PRESIDENT'S MESSAGE

I would like to thank all those that helped make the 20th Anniversary Tournament such a success. I have heard nothing but positive comments. If you haven't had a chance to read the Arabian Sun article it is available [here](#) (Aramco network only). Results for the Anniversary Tournament can be found on Pages 2 through 4.

Work continues on installing lights on the backside of the course. You will notice a lot of work being done on holes 4 and 16.

While we might be in the heat of the summer, RHGC is actively planning its annual Golf Ball. This year we are moving to the Radisson Blu in Bahrain. Information about the ball can be found on page 7.

As always, during the summer it is important to stay hydrated on the course. Do not wait until you are thirsty as that is a sign of dehydration. RHGC has worked with Recreation to ensure that the coolers are filled each day and that ice is available at the club house. If possible, top up your water bottle with electrolyte drink crystals.

See you on the course.

Bruce Waldner, RHGC President

Our June Nine and Dine was a bag of tricks format that had ladies teeing it up on the fairway and tossing balls onto the green. Fun was had by all! We also had a lovely send off for Laila who has grown a love for golf while being a member here at RHGC.

Our league will take a brief hiatus over the summer and return for more golf in the fall. If you would like to be added to our WhatsApp group, please email [rhgcladiesdirector@gmail.com](mailto:rhgcladiesdirector@gmail.com) where we organize the social side of golf!

### HOW TO HIT A DRAW / RIGHT TO LEFT BALL FLIGHT

The consistent right to left ball flight finishing on the target is a shot most golfers would love to have. The trajectory naturally produces more distance and is less affected by the wind. Trust that the secret to any shot in golf relies on the correct address position.

1. Point your clubface right of the target to produce a draw. Set up so that the club face is aiming slightly to the right of your target.
2. Aim your feet, hips and shoulders further to the right than the club face. This will, in effect, give the club face a closed position in relation to the swing path, imparting draw spin on the golf ball.
3. Clubface direction and swing path will curl the ball right to left. Swing along the line of your feet, hips and shoulders, starting the ball out to the right and allowing the closed club face to curve it back.
